

Overstrand Municipality

Annual Financial Statements
for the year ended 30 June 2013

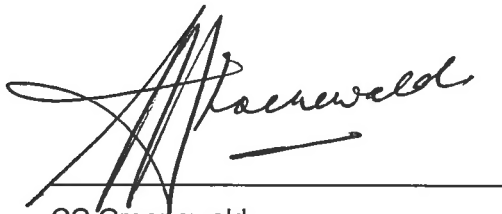

**OVERSTRAND MUNICIPALITY
ANNUAL FINANCIAL STATEMENTS**

for the year ended 30 June 2013

APPROVAL OF THE ANNUAL FINANCIAL STATEMENTS

I am responsible for the preparation of these annual financial statements, which are set out on pages 1 to 84, in terms of Section 126(1)(a) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors, loans made to Councillors, if any, and payments made to Councillors for loss of office, if any, as disclosed in the notes of these annual financial statement are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

A handwritten signature in black ink, appearing to read 'Groenewald', is written over a horizontal line.

CC Groenewald

Municipal Manager

30 August 2013

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1. Presentation of Annual Financial Statements

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise. They are presented in South African Rand.

A summary of the significant accounting policies, which have been consistently applied, are disclosed below.

These accounting policies are consistent with the previous period, except for the changes set out in note 2 Changes in accounting policy

1.1 Significant judgements and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements.

Impairment testing

The municipality reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of goodwill and tangible assets are inherently uncertain and could materially change over time. They are significantly affected by a number of factors including [list entity specific variables, i.e. production estimates, supply demand], together with economic factors such as [list economic factors such as exchange rates inflation interest].

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 20 - Provisions.

Useful lives of infrastructure and other assets

The municipality's management determines the estimated useful lives and related depreciation charges for infrastructure and other assets. This estimate is based on industry norm. Management will increase the depreciation charge where useful lives are less than previously estimated useful lives.

Post retirement benefits

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post retirement obligations.

1.2 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.2 Investment property (continued)

Fair value

Subsequent to initial measurement investment property is measured at fair value.

The fair value of investment property reflects market conditions at the reporting date.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Property interests held under operating leases are classified and accounted for as investment property in the following circumstances:

When classification is difficult, the criteria used to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of business, are as follows:

- All properties held to earn market-related rentals or for capital appreciation or both and that are not for administrative purposes and that will not be sold within the next 12 months are classified as Investment Properties.
- Land held for currently undetermined future use.
- Leases properties that are held to provide a social (community) service or that are necessary for employees to perform their job functions, but which also generates rental revenue are not seen as Investment Properties. The rental revenue generated is incidental to the purposes for which the property is held.

1.3 Property, plant and equipment

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired through a non-exchange transaction (no cost or for a nominal cost), its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.3 Property, plant and equipment (continued)

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Useful life in years
Buildings	5 - 30
Furniture and fixtures	3 - 15
Motor vehicles	4 - 10
Office equipment	3 - 15
Infrastructure	
• Roads and paving	3 - 60
• Pedestrian malls	25 - 80
• Electricity	3 - 60
• Water	5 - 100
• Sewerage	10 - 60
• Housing	30
Community	
• Improvements	5 - 30
• Recreational facilities	5 - 30
• Security	5 - 15
Other property, plant and equipment	
• Bins and containers	10 - 15

The residual value, the useful life and depreciation method of each asset are reviewed at the end of each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Reviewing the useful life of an asset on an annual basis does not require the entity to amend the previous estimate unless expectations differ from the previous estimate.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Land is not depreciated as it is deemed to have an indefinite useful life.

Incomplete construction work is stated at historical cost. Depreciation only commences when the asset is available for use.

1.4 Intangible assets

An asset is identified as an intangible asset when it:

- is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, assets or liability; or
- arises from contractual rights or other legal rights, regardless whether those rights are transferable or separate from the municipality or from other rights and obligations.

Intangible assets are initially recognised at cost.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.4 Intangible assets (continued)

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item	Useful life in years
Computer software, other	2 - 5

1.5 Heritage assets

Class of heritage assets means a grouping of heritage assets of a similar nature or function in an municipality's operations that is shown as a single item for the purpose of disclosure in the annual financial statements.

Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of its acquisition or construction or, where applicable, the amount attributed to that asset when initially recognised in accordance with the specific requirements of other Standards of GRAP.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

An inalienable item is an asset that an municipality is required by law or otherwise to retain indefinitely and cannot be disposed of without consent.

Recognition

The municipality recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the municipality, and the cost or fair value of the asset can be measured reliably.

Initial measurement

Heritage assets are measured at cost.

Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Subsequent measurement

After recognition as an asset, a class of heritage assets is carried at its cost less any accumulated impairment losses.

Impairment

The municipality assess at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the municipality estimates the recoverable amount or the recoverable service amount of the heritage asset.

Transfers

Transfers from heritage assets are only made when the particular asset no longer meets the definition of a heritage asset.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.5 Heritage assets (continued)

Derecognition

The municipality derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the heritage asset. Such difference is recognised in surplus or deficit when the heritage asset is derecognised.

1.6 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

Derecognition is the removal of a previously recognised financial asset or financial liability from an entity's statement of financial position.

Classification

The municipality has the following types of financial assets as reflected on the face of the statement of financial position or in the notes thereto:

Class

Operating lease assets
Receivables from exchange transactions
Other receivables from non-exchange transactions
VAT receivable
Consumer debtors
Long term receivables
Cash and cash equivalents
Other financial assets

Category

Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at amortised cost
Financial asset measured at fair value

The municipality has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class

Other financial liabilities
Finance lease obligation
Payables from exchange transactions
Consumer deposits

Category

Financial liability measured at amortised cost
Financial liability measured at amortised cost
Financial liability measured at amortised cost
Financial liability measured at amortised cost

Initial recognition

The municipality recognises a financial asset or a financial liability in its statement of financial position when the municipality becomes a party to the contractual provisions of the instrument.

The entity recognises financial assets using trade date accounting.

Initial measurement of financial assets and financial liabilities

The municipality measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.6 Financial instruments (continued)

Subsequent measurement of financial assets and financial liabilities

The municipality measures all financial assets and financial liabilities after initial recognition using the following categories:

- Financial instruments at fair value.
- Financial instruments at amortised cost.
- Financial instruments at cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

Gains and losses

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in surplus or deficit.

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

Impairment and uncollectibility of financial assets

The municipality assess at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

Financial assets measured at amortised cost:

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly or through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly or by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

Derecognition

Financial assets

The municipality derecognises a financial asset only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the municipality transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the municipality, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the municipality :
 - derecognise the asset; and
 - recognise separately any rights and obligations created or retained in the transfer.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received is recognised in surplus or deficit.

If a transfer does not result in derecognition because the municipality has retained substantially all the risks and rewards of ownership of the transferred asset, the municipality continue to recognise the transferred asset in its entirety and recognise a financial liability for the consideration received. In subsequent periods, the municipality recognises any revenue on the transferred asset and any expense incurred on the financial liability. Neither the asset, and the associated liability nor the revenue, and the associated expenses are offset.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.6 Financial instruments (continued)

Financial liabilities

The municipality removes a financial liability (or a part of a financial liability) from its statement of financial position when it is extinguished — i.e. when the obligation specified in the contract is discharged, cancelled, expires or waived.

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in surplus or deficit. Any liabilities that are waived, forgiven or assumed by another entity by way of a non-exchange transaction are accounted for in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

1.7 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Finance leases - lessor

The municipality recognises finance lease receivables as assets on the statement of financial position. Such assets are presented as a receivable at an amount equal to the net investment in the lease.

Finance revenue is recognised based on a pattern reflecting a constant periodic rate of return on the municipality's net investment in the finance lease.

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the effective interest rate applicable to the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.8 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.8 Inventories (continued)

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Water and purified effluent are valued at purified cost insofar as it is stored and controlled in reservoirs at year-end.

Unsold properties are valued at the lower of cost and net realisable value on a weighted average cost basis. Direct costs are accumulated for each separately identifiable development. Costs also include a proportion of overhead costs.

1.9 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets held for sale are measured at the lower of its carrying amount and fair value less costs to sell.

The gain or loss on the eventual sale of non-current assets held for sale is included in the statement of financial performance as gain or loss on sale of assets. The gain or loss on the eventual sale of non-current assets held for sale is calculated on the difference between the net disposal proceeds and the carrying amount of the individual asset.

1.10 Impairment of cash-generating assets

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

Value in use

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the municipality estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the municipality applies the appropriate discount rate to those future cash flows.

1.11 Impairment of non-cash-generating assets

Non-cash-generating assets are assets other than cash-generating assets.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.11 Impairment of non-cash-generating assets (continued)

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Identification

When the carrying amount of a non-cash-generating asset exceeds its recoverable service amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Value in use

Value in use of non-cash-generating assets is the present value of the non-cash-generating assets remaining service potential.

1.12 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Composite social security programmes are established by legislation and operate as multi-employer plans to provide post-employment benefits as well as to provide benefits that are not consideration in exchange for service rendered by employees.

A constructive obligation is an obligation that derives from an entity's actions where by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities and as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The municipality measure the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The entity recognise the expected cost of bonus, incentive and performance related payments when the municipality has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.12 Employee benefits (continued)

Post-employment benefits

Post-employment benefits are employee benefits (other than termination benefits) which are payable after the completion of employment.

Post-employment benefit plans are formal or informal arrangements under which an entity provides post-employment benefits for one or more employees.

Multi-employer plans are defined contribution plans under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the Statement of Financial Performance in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid.

The municipality contributes to various National- and Provincial-administered Defined Benefit Plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to the fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. These defined benefit funds are actuarially valued bi-annually on the Projected Unit Credit Method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

Other post retirement obligations

The municipality provides post-retirement health care benefits upon retirement to some retirees.

The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. Independent qualified actuaries carry out valuations of these obligations. The municipality also provides a gratuity and housing subsidy on retirement to certain employees. An annual charge to income is made to cover both these liabilities.

The amount recognised as a liability for other long-term employee benefits is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly.

The municipality shall recognise the net total of the following amounts as expense or revenue, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement right recognised as an asset;
- actuarial gains and losses, which shall all be recognised immediately;
- past service cost, which shall all be recognised immediately; and
- the effect of any curtailments or settlements.

1.13 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.13 Provisions and contingencies (continued)

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 45.

1.14 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Service charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption up to year-end are recorded as revenue without being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption from the first reading after the reporting date.

Revenue from the sale of pre-paid electricity units is recognised when the risks and rewards of ownership has passed to the buyer.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.14 Revenue from exchange transactions (continued)

Revenue received from pre-paid electricity sales are deferred and recognised as revenue on the consumption basis, commencing on the date of purchase. The consumption of pre-paid electricity is measured by using a trend analysis and other historical data about electricity usage, including how often an electricity card is purchased or additional units of electricity loaded onto a pre-paid card.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has a water connection. Tariffs are determined per category of property usage and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

Service charges from sewerage and sanitation are charged on both vacant and developed property using the tariffs approved from Council and are levied monthly.

Interest and other revenue

Interest is recognised, in surplus or deficit, using the effective interest rate method.

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed.

Revenue arising from the application of the approved tariff of charges is recognised when the service is rendered by applying the relevant approved tariff. This includes the issuing of licences and permits.

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

Finance income from the sale of housing by way of instalment sales agreements or finance leases is recognised on a time proportion basis.

1.15 Revenue from non-exchange transactions

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, an municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.15 Revenue from non-exchange transactions (continued)

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Taxes

The municipality recognises an asset in respect of taxes when the taxable event occurs and the asset recognition criteria are met.

Resources arising from taxes satisfy the definition of an asset when the municipality controls the resources as a result of a past event (the taxable event) and expects to receive future economic benefits or service potential from those resources. Resources arising from taxes satisfy the criteria for recognition as an asset when it is probable that the inflow of resources will occur and their fair value can be reliably measured. The degree of probability attached to the inflow of resources is determined on the basis of evidence available at the time of initial recognition, which includes, but is not limited to, disclosure of the taxable event by the taxpayer.

The municipality analyses the taxation laws to determine what the taxable events are for the various taxes levied.

The taxable event for value added tax is the undertaking of taxable activity during the taxation period by the taxpayer.

The taxable event for property tax is the passing of the date on which the tax is levied, or the period for which the tax is levied, if the tax is levied on a periodic basis.

Taxation revenue is determined at a gross amount. It is not reduced for expenses paid through the tax system.

Transfers

Apart from Services in kind, which are not recognised, the municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

Transferred assets are measured at their fair value as at the date of acquisition.

Debt forgiveness and assumption of liabilities

The municipality recognise revenue in respect of debt forgiveness when the former debt no longer meets the definition of a liability or satisfies the criteria for recognition as a liability, provided that the debt forgiveness does not satisfy the definition of a contribution from owners.

Revenue arising from debt forgiveness is measured at the carrying amount of debt forgiven.

Fines

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when payment is received, together with management's best estimate of the probable inflows from the amounts not yet collected.

Bequests

Bequests that satisfy the definition of an asset are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality, and the fair value of the assets can be measured reliably.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.15 Revenue from non-exchange transactions (continued)

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

Services in-kind

Services in-kind are not recognised.

1.16 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset until such time as the asset is ready for its intended use. The amount of borrowing costs eligible for capitalisation is determined as follows:

- Actual borrowing costs on funds specifically borrowed for the purpose of obtaining a qualifying asset less any investment income on the temporary investment of those borrowings.
- Weighted average of the borrowing costs applicable to the municipality on funds generally borrowed for the purpose of obtaining a qualifying asset. The borrowing costs capitalised do not exceed the total borrowing costs incurred.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

1.17 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

1.18 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.19 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.20 Irregular expenditure

According to section 1 of the MFMA: "irregular expenditure", in relation to a municipality or municipal entity, means -

- (a) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of this Act and which has not been condoned in terms of section 170; or
 - (b) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the Municipal Systems Act and which has not been condoned in terms of that Act; or
 - (c) expenditure incurred by a municipality in contravention of, or that is not in accordance with, a requirement of the Public Office-Bearers Act, 1998 (Act No. 20 of 1998); or
 - (d) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the supply chain management policy of the municipality or entity or any of the municipality's by-laws giving effect to such policy and which has not been condoned in terms of such policy or by-law,
- but excludes expenditure by a municipality which falls within the definition of unauthorised expenditure.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.20 Irregular expenditure (continued)

Irregular expenditure that was incurred and identified during the current financial year and which was condoned before year end and/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount condoned.

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.21 Presentation of currency

These annual financial statements are presented in South African Rand.

1.22 Offsetting

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP

1.23 Housing development fund

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from national and provincial government used to finance housing selling schemes undertaken by the municipality were extinguished on 1 April 1998 and transferred to a Housing Development Fund. Housing selling schemes, both complete and in progress as at 1 April 1998, were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sales of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

1.24 Internal reserves

Self insurance reserve

The municipality has a Self-Insurance Reserve to set aside amounts to offset potential losses or claims that cannot be insured externally. The balance of the self-insurance fund is invested in short-term cash investments.

Claims are settled by transferring a corresponding amount from the self-insurance reserve to the accumulated surplus.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.25 Conditional grants and receipts

Conditions on transferred assets require that the entity either consume the future economic benefits or service potential of the asset as specified or return future economic benefits or service potential to the transferor in the event that the conditions are breached. Therefore, the recipient incurs a present obligation to transfer future economic benefits or service potential to third parties when it initially gains control of an asset subject to a condition.

Restrictions on transferred assets do not include a requirement that the transferred asset, or other future economic benefits or service potential is to be returned to the transferor if the asset is not deployed as specified. Therefore, gaining control of an asset subject to a restriction does not impose on the recipient a present obligation to transfer future economic benefits or service potential to third parties when control of the asset is initially gained.

1.26 Budget information

Municipality are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by municipality shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on an accrual basis and presented by functional classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2012/07/01 to 2013/06/30.

The annual financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

The Statement of comparative and actual information has been included in the annual financial statements as the recommended disclosure when the annual financial statements and the budget are on the same basis of accounting as determined by National Treasury.

Comparative information is not required.

1.27 Changes in accounting policies, estimates and errors

Changes in accounting policies that are effected by management are applied retrospectively in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the change in policy. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

Changes in accounting estimates are applied prospectively in accordance with GRAP 3 requirements. Details of changes in estimates are disclosed in the notes to the annual financial statements where applicable.

Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

1.28 Events after reporting date

Events after reporting date that are classified as adjusting events are accounted for in the annual financial statements. The events after reporting date that are classified as non-adjusting events are disclosed in the notes to the annual financial statements.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Accounting Policies

1.29 Standards, amendments to standards and interpretations issued but not yet effective

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

GRAP 18	Segment reporting - issued February 2011
GRAP 20	Related parties - issued June 2011

Application of all the above GRAP standards will be effective from the date to be announced by the Minister of Finance. This date is not currently available.

The ASB Directive 5 paragraph 29 allows for the municipality to apply the principles established in a standard of GRAP that has been issued, but is not yet effective, in developing an appropriate accounting policy dealing with a particular transaction or event before applying paragraph 12 of GRAP 3 on Accounting policies, Changes in accounting estimates and Errors.

The municipality applied the principles established in a standard of GRAP that has been issued, but is not yet effective, in developing an appropriate accounting policies dealing with the following transactions, but have not early adopted these standards:

GRAP 25	Employee benefits - issued November 2009
---------	--

Management has considered all the above standards issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

The following standards have been issued and are effective but not yet applicable:

GRAP 25	Employee benefits - effective 1 July 2013
---------	---

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

2. Changes in accounting policy

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice on a basis consistent with the prior year except for the adoption of the following new or revised standards.

- GRAP 21 Impairment of non-cash-generating assets - effective 1 July 2012
- GRAP 23 Revenue from non-exchange transactions - effective 1 July 2012
- GRAP 24 Presentation of budget information in financial statements - effective 1 July 2012
- GRAP 26 Impairment of cash-generating assets - effective 1 July 2012
- GRAP 103 Heritage assets - effective 1 July 2012
- GRAP 104 Financial instruments - effective 1 July 2012

New standards of GRAP

During the year, the municipality changed its accounting policies with respect to the treatment of impairment, revenue, budget information, heritage assets and financial instruments. In order to conform with the benchmark treatment in the above mentioned standards of GRAP.

Change in accounting policy in terms of measurement after recognition of land and buildings

During the year, the municipality changed the accounting policy with respect to the treatment of land and buildings in GRAP 17 - Property, plant and equipment. The measurement after recognition has changed from the revaluation model to the cost model. As the current financial year would have been the first year there will be no effect on the financial position, financial performance, cash flows and net assets of the municipality.

The municipality's land and buildings are not traded in an active market. The probability of disposal is negligible as these assets are used for basic service delivery. The cost model is based on objective values whereas the revaluation model is subjective. Therefore the cost model is more appropriate for this asset class.

Refer to note 47

3. Investment property

	2013			2012		
	Cost / Valuation	Accumulated depreciation and accumulated impairment	Carrying value	Cost / Valuation	Accumulated depreciation and accumulated impairment	Carrying value

Intangible assets with indefinite lives:

Water rights	2,360,000	2,360,000
--------------	-----------	-----------

The municipality entered into a contract with Kraai Bosch Plase (Pty) Ltd on 28 May 1999. The useful life of the water right is considered indefinite. The contract does not define when the municipality will cease to enjoy the right to use the water from the Kraaibosch dam. There is no reason to believe that the right to the Kraaibosch dam has a limited useful life due to the condition of the dam. Regular assessments are performed to determine whether the conditions that existed at the inception of the contract have changed.

6. Heritage assets

	2013			2012

	108,679,509	(127,465)	108,552,044

7. Other financial assets

Designated at fair value

New Republic Bank	451,148	-
The municipality has an investment with New Republic Bank. The bank is under receivership since October 1999. Interest only accrued until 31 December 2007. There is no guarantee that the municipality will receive the full value of the investment. After the 2013 financial year-end, a dividend of R0.5268 on the capital still outstanding has been received. Therefore a portion of the impairment was reversed. This brings the total payout to 99.15% of the original investment.		
Liberty - Sinking fund	10,440,037	5,415,671
Momentum - Sinking fund	705,404	275,632
	11,596,589	5,691,303

Non-current assets

Designated at fair value	11,596,589	5,691,303
--------------------------	------------	-----------

Financial assets at fair value

In determining the recoverability of other financial assets, the Overstrand Municipality considers any change in the credit quality of the other financial assets from the date the credit was initially granted up to the reporting date.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

8. Employee benefit obligations

Defined benefit plan

The municipality provides certain post-retirement health care benefits by funding the medical aid contributions of qualifying retired members of the municipality. According to the rules of the Medical Aid Funds, with which the municipality is associated, a member (who is on the current Conditions of Service) is entitled to remain a continued member of such medical aid fund on retirement, in which case the municipality is liable for a certain portion of the medical aid membership fee. The municipality operates an unfunded defined benefit plan for these qualifying employees. No other post-retirement benefits are provided to these employees.

The municipality makes monthly contributions for health care arrangements to the following medical aid schemes:

- Bonitas;
- LA Health;
- Prosano;
- Hosmed;
- Samwumed; and
- Keyhealth

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2012 by Mr DR Poane, Fellow of the Actuarial Society of South Africa, including projections for the 2013 and 2014 financial periods. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

The members of the Post-employment Health Care Benefit Plan are made up as follows:

In-service members (employees)	387	387
Continuation members (retirees, widowers and orphans)	70	70
	457	457

The amounts recognised in the statement of financial position are as follows:

Carrying value		
Present value of the defined benefit obligation-wholly unfunded	(81,920,000)	(73,505,000)
Non-current liabilities	(79,887,000)	(71,562,000)
Current liabilities	(2,033,000)	(1,943,000)
	(81,920,000)	(73,505,000)

Changes in the present value of the defined benefit obligation are as follows:

Opening balance	73,505,000	63,437,000
Net expense recognised in the statement of financial performance	8,415,000	10,068,000
	81,920,000	73,505,000

Net expense recognised in the statement of financial performance

Current service cost	4,580,000	4,191,000
Interest cost	5,778,000	5,234,000
Actuarial (gains) / losses	83,043	2,517,906
Benefits paid	(2,026,043)	(1,874,906)
	8,415,000	10,068,000

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

8. Employee benefit obligations (continued)

Key assumptions used

Assumptions used at the reporting date:

Discount rates used	7.86 %	7.86 %
Medical cost trend rates	6.37 %	6.37 %
Net effective discounted rate	1.40 %	1.40 %

Management assessed the assumptions used and found it to be adequate.

Other assumptions

Assumed healthcare cost trends rates have a significant effect on the amounts recognised in surplus or deficit. A one percentage point change in assumed healthcare cost trends rates would have the following effects:

	One percentage point increase	One percentage point decrease
Effect on the aggregate of the service cost and interest cost	12,993,000	9,766,000
Effect on defined benefit obligation	94,208,000	72,089,000

Amounts for the current and previous four years are as follows:

	2013 R	2012 R	2011 R	2010 R	2009 R
Defined benefit obligation	81,920,000	73,505,000	63,437,000	56,587,000	53,518,638

Defined contribution plan

It is the policy of the municipality to provide retirement benefits to all its employees. A number of defined contribution plans, all of which are subject to the Pensions Fund Act exist for this purpose.

The municipality is under no obligation to cover any unfunded benefits.

9. Long term receivables

Land sales	1,452	3,352
Officials: Study loans	-	5,300
Housing selling scheme loans	17,710	18,643
Sport clubs	81,841	124,075
	101,003	151,370
Non-current assets		
Long term receivables	83,571	126,072
Current assets		
Long term receivables	17,432	25,298
	101,003	151,370

In determining the recoverability of long term receivables, the Overstrand Municipality considers any change in the credit quality of the long term receivables from the date the credit was initially granted up to the reporting date.

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

16. Non-current assets held for sale

Assets meeting the definition and recognition criteria of non-current assets held for sale are reclassified and measured in accordance with GRAP 100 requirements.

ERF NO. 109, Van Dyksbaai

In principle approval was obtained on 23 September 2009. The tender was advertised on 20 September 2012 (active marketing of sale). Section 14 disposal advertisement appeared in the media on 15 February 2013. Final approval for transfer was obtained on 23 March 2013. Deed of Sale was signed on 25 May 2013. A conveyancing attorney was appointed on 30 May 2013. The sale will be completed within one year from the date of recognition.

ERF NO. 217, Zwelihle

Transaction was not completed within one year of date of recognition. The delay was caused by the purchaser: late payment of application fee; compliance with restrictive condition to consolidate properties and delay in signature of Deed of Sale. In principle approval was obtained on 30 May 2012. The advertisement appeared in the media on 31 August 2012. Final approval for transfer was obtained on 28 November 2012. Council still intends to dispose of the property and a Deed of Sale was signed on 13 May 2013. Transfer attorneys were appointed on 20 May 2013. The sale will be completed by 30 June 2014.

ERVEN NO. 6468 to 6490, ERF 11456, ERF 2834 and ERF 3895

These erven have been derecognised as the sales will not be completed within the next 12 months. Erf 2834 was cancelled due to breach of contract by the purchaser.

ERF 3897, ERF 2203 and ERF 7699

The municipality was informed of the possible establishment of a TB clinic on one of these properties, to the benefit of the community. After negotiations took place, it was decided to rather donate these properties. The in principle decision for the donation was obtained on 24 April 2013.

ERF 11154, ERF 611 and ERF 11436

The municipality decided not to sell these properties as after going out on tender no purchasers were obtained.

Non-current assets held for sale comprises of the following:

Erven no. 6468 to 6490 - Hermanus Mount Pleasant	-	1,513,636
Erf no. 109 - Van Dyksbaai	1,025,000	1,025,000
Erf no. 611 - Gansbaai	-	99,821
Erf no. 3895 - Gansbaai	-	3,232
Erf no. 2203, portion of 407 - Hawston	-	193,059
Erf no. 11154 - Hermanus	-	4,300,000

Present value of minimum lease payments due

- within one year	484,773	374,480
- in second to fifth year inclusive	259,781	623,289
	744,554	997,769

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
17. Finance lease obligation (continued)		
Non-current liabilities	259,781	623,289
Current liabilities	484,773	374,480
	744,554	997,769

The municipality has entered into contracts with suppliers for the rental of office equipment and has agreed to accept the option to purchase the equipment at the end of the lease term.

The average lease term was 3 years and the average effective borrowing rate was 13% (2012: 12%).

Interest rates are fixed at the contract date. All leases have fixed repayments and no arrangements have been entered into for contingent rent.

18. Unspent conditional grants

Unspent conditional grants and receipts comprises of:

Government grants:

Housing consumer education grant	47,385	66,321
Human settlements development grant	5,460,898	3,418,697
Mobility strategy	105,868	330,839
Public transport non-motorised infrastructure grant	1,500,000	-
Unspent public contributions and donations	669,172	739,620
	7,783,323	4,555,477

Movement during the year

Balance at the beginning of the year	4,555,477	4,377,054
Additions during the year	63,292,914	73,224,272
Income recognition during the year	(60,065,068)	(65,379,900)
Transfer to debtors	-	(7,665,949)
	7,783,323	4,555,477

The nature and extent of government grants recognised in the annual financial statements and an indication of other forms of government assistance from which the municipality has directly benefited; and

Unfulfilled conditions and other contingencies attaching to government assistance that has been recognised.

See note 25 for reconciliation of grants from National/Provincial Government.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
19. Other financial liabilities		
At amortised cost		
Annuity loans	382,150,284	357,004,273
Non-current liabilities		
At amortised cost	364,394,191	340,580,681
Current liabilities		
At amortised cost	17,756,093	16,423,592

The fair values of the financial liabilities were determined as follows:

a) The management of the municipality is of the opinion that the carrying value of Financial Assets and Financial Liabilities recorded at amortised cost in the Annual Financial Statements approximate their fair values. The fair value of Financial Assets and Financial Liabilities were determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the current payment ratio's of the municipality's debtors.

b) At the reporting date there are no significant concentrations of credit risk for other financial liabilities. The carrying amount reflected above represents the municipality's maximum exposure to credit risk for such other financial liabilities.

Refer to note 48 for maturity analysis of financial liabilities.

20. Provisions

Reconciliation of provisions - 2013

	Opening Balance	Additions/ Adjustments	Utilised during the year	Total

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

20. Provisions (continued)

Rehabilitation of tip sites

The cost to rehabilitate all identified sites in the Overstrand are estimated at R40,123,493.

Clearing of alien vegetation

Approximately 23% of a total area of 5,705ha must be cleared during the next 5 to 10 years and the estimated cost amounts to R1,487,477.

Long service bonuses

A long-service award is granted to municipal employees after the completion of fixed periods of continuous service with the Municipality. The said award comprises a certain number of vacation leave days which, in accordance with the option exercised by the beneficiary employee, can be converted into a cash amount based on his/her basic salary applicable at the time the award becomes due or, alternatively, credited to his/her vacation leave accrual. The provision represents an estimation of the awards to which employees in the service of the Municipality at 30 June 2013 may become entitled to in future, based on an actuarial valuation performed at 30 June 2012.

Gratification payable

The cost of the gratification payable was based on employees not belonging to a pension fund up until February 2003 and is only payable on retirement.

Other provision

Other provisions consist of leave pay and bonus provisions. Annual leave and bonuses accrues to employees on a monthly basis, subject to certain conditions. The provision is an estimate of the amount due to staff as at the financial year-end, based on the value of leave and bonuses.

21. Payables from exchange transactions

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

35. Depreciation and amortisation

Property, plant and equipment	95,703,850	100,711,204
Intangible assets	372,536	218,761
	96,076,386	100,929,965

36. Impairment of assets

Impairments

Property, plant and equipment	9,655,208	3,111,159
Other financial assets	(451,148)	-
	9,204,060	3,111,159

The main classes of assets affected by impairment losses are:

Heritage assets

PPE - Land

The main classes of assets affected by reversals of impairment losses are:

Other financial assets

The main events and circumstances that led to the recognition of these impairment losses are as follows:

The carrying value was compared to the value reflected in the valuation roll. Any heritage assets identified where the carrying value was more than the general valuation value was impaired.

Property was accured in an exchange transaction and impairment was recognised as a road was build on the property which affected its fair value.

The main events and circumstances that led to the reversals of these impairment losses are as follows:

The municipality has an investment with New Republic Bank which was impaired from R2,631,821 to Rnil in 2010/2011 financial year. Management reversed a portion of the impairment to the amount of R451, 148 during the 2012/2013 financial year as a further 9th dividend was paid out to the municipality in the new financial year to the amount of R451,148.

37. Finance costs

	79,640,258	111,824,565
43. Materials		
Materials	12,446,782	54,586,579
National treasury requested via circular 54 that municipalities change the repairs and maintenance to materials as well as the unpacking thereof between materials and contracted services, to reflect a more accurate view of components of repairs and maintenance. Repairs and maintenance was, as far as practically possible, unpacked for the 2011/12 year, as a result there is a variance from 2012 to 2013 for materials and contracted services.		
44. Commitments		
Authorised capital expenditure		
Contracts entered into		
• Property, plant and equipment	13,565,429	20,302,159
Contracts not initiated, but budget approved by council		
• Property, plant and equipment	123,509,115	169,043,235

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
44. Commitments (continued)		
Operating leases - as lessee (expense)		
Minimum lease payments due		
- within one year	65,450	78,540
- in second to fifth year inclusive	-	65,450
	65,450	143,990

Operating lease payments represent rentals payable by the municipality for its office equipment. Leases are negotiated for an average term of 3 years and rentals are fixed for the lease term. No contingent rent is payable.

Operating leases - as lessor (income)

Minimum lease payments due		
- within one year	353,771	408,396
- in second to fifth year inclusive	772,852	1,014,736
- later than five years	3,090,621	3,202,508
	4,217,244	4,625,640

Dedicated municipal property is held to generate rental income. Lease agreements are non-cancellable and have terms from 3 to 99 years. There are no contingent rentals receivable.

45. Contingencies

Contingent liabilities

G Lamont et al v Overstrand Municipality

The applicant's application for an order in the Western Cape High Court, requesting the Municipality to remove dune sand in a road reserve, was dismissed with costs. The applicant subsequently appealed the decision on 16 April 2013. The appeal shall be settled within the new financial year. The municipality's exposure is approximately R120 000.

Golden Bay Properties 234 cc v Overstrand Municipality

The Municipality has been sued in the amount of R100 000 by Golden Bay Properties for the alleged replacement of a transformer by the latter on behalf of the Municipality. The summons was served on 26 February 2013. The Municipality is currently opposing the claim in the local magistrate's court.

Cape Joint Pension Fund v Overstrand Municipality

Summons has been served on the Municipality by Cape Joint Pension Fund on 23 November 2012 in lieu of outstanding employer contributions in the amount of R41 194. The matter is enrolled at the local magistrate's court. The parties are currently engaged in settlement negotiations in order to settle the dispute.

Cape Joint Pension Fund v Overstrand Municipality

On 30 June 2009 Cape Joint Pension Fund realised a rate of interest of less than 5.5% on the total monies of the Fund. Rule 17(5) of the Fund states that local authorities associated with the Fund shall cover the shortfall in proportion to the contributions paid by each local authority. At 30 June 2011 the claim made by the Cape Joint Pension Fund amounts to R1,385,757 plus interest at the prescribed rate from 15 February 2010.

The board of trustees has endorsed a proposed transfer of the fund's defined benefit members to its defined contribution section. The claim will be withdrawn by the fund if this proposal is accepted by the participating employers and employees.

Marius Kleynhans et. al vs Overstrand Municipality

The matter is still pending in the Western Cape High Court and is expected to resume in November 2013. The contingent liability of approximately R2,5 million remains the same.

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

45. (continued)

South African Revenue Service

On 5 July 2013 the municipality received a notice of audit findings regarding the treatment of tax on SAMWU providend fund amounting to R517 894 excluding penalties and interest. The municipality submitted documentation disputing the claim but have not received an outcome from SARS to date.

Contingent assets

Overstrand Municipality vs Corptrain (Pty) Ltd

The applicant filed a Notice of Motion in the Gauteng High Court requesting that: Corptrain (Pty) Ltd return monies erroneously transferred to them. A warrant of execution against the property of Corptrain (Pty) Ltd has been obtained. The exposure is approximately R176,250 plus interest at 13.5% from 4 August 2010.

New Republic Bank

The municipality has an investment with New Republic Bank. The bank is under receivership since October 1999. Interest only accrued until 31 December 2007. There is no guarantee that the municipality will receive the full value of the investment. After the 2013 financial year-end, a dividend of R0.5268 on the capital still outstanding has been received. Therefore the a portion of the impairment was reversed. This brings the total payout to 99.15% of the original investment.

Due to the fact that the majority of the debt still to be collected, by the receivers, involve some form of legal action, it is not possible to determine a date as to when the liquidation process will be completed.

Management impaired this investment from R2,631,821 to Rnil in 2010/2011 financial year. Management reversed a portion of the impairment to the amount of R451, 148 during the 2012/2013 financial year.

46. Related parties

Relationships

Members of key management

Refer to notes 30 and 31

There were no other related party transactions during the financial year, except as listed above.

47. Comparative figures

The information presented below are only the statement of financial position and statement of financial performance items that have been affected by adjustments to comparative figures. The comparative figures have been adjusted for the following reasons:

Accounting errors:

Accounting errors relating to prior periods have been identified during the 2012/2013 financial period. These errors include mathematical errors ¹, misapplication of accounting policies ², oversight or misinterpretation of facts ³, and effects of fraud ⁴

Changes in classification:

Changes in classification were due to bringing items in line with National Treasury's budget guidelines.

Changes in accounting policies:

Changes in accounting policies were due to GRAP 23 and 103 regarding Revenue from non-exchange transactions and Heritage assets, respectively, that became effective on 1 July 2012 and needed to be implemented retrospectively.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

48. Risk management

Financial risk management

Due to the largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IAS's mainly apply. Generally, Financial assets and liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.

The Finance directorate monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk and liquidity risk. Compliance with policies and procedures are reviewed by the internal auditors on a continuous basis and annually by the external auditors. The municipality does not enter into or trade with financial instruments for speculative purposes.

Internal audit, responsible for initiating a control framework and monitoring and responding to potential risk, reports periodically to the municipality's audit committee, an independent body that monitors the effectiveness of the internal audit function.

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored. Sales to retail customers are settled in cash or using major credit cards. Credit guarantee insurance is purchased when deemed appropriate.

Financial assets exposed to credit risk at year end were as follows:

Counter parties with external credit rating (Fitch's):

Other financial assets

F1	55,041,546	75,000,000
F3	11,596,589	5,691,303

Counter parties without external credit rating:

Trade and other receivables from exchange and non-exchange transactions

Group 2	15,520,396	14,006,138
Group 3	10,728,221	7,664,189

Consumer debtors

Group 1	16,771,546	12,271,567
Group 2	839,736	1,432,025
Group 3	1,214,280	1,937,258
Group 4	30,254,703	34,720,267

Long term receivables

Group 3	101,003	151,370
---------	---------	---------

F1 = Highest credit quality. Indicates the strongest capacity for timely payment of financial commitments.

F2 = Good credit quality. A satisfactory capacity for timely payment of financial commitments.

F3 = Fair credit quality. The capacity for timely payment of financial commitments is adequate.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

48. Risk management (continued)

Group 1 = Speculative. Minimal capacity for timely payment of financial commitments, plus vulnerability to near term adverse changes in the financial and economic conditions.

Group 2 = Fair credit quality. The capacity for timely payment of financial commitments is adequate.

Group 3 = Good credit quality. A satisfactory capacity for timely payment of financial commitments.

Group 4 = Highest credit quality. Indicates the strongest capacity for timely payment of financial commitments.

Market risk

Interest rate risk

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the municipality to cash flow interest rate risk. Borrowings issued at fixed rates expose the municipality to fair value interest rate risk. The municipality's policy is to maintain approximately 60% of its borrowings in fixed rate instruments. During 2013 and 2012, the municipality's borrowings at variable rate were denominated in Rand.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with well established financial institutions of high credit standing. No investment with a tenure exceeding twelve months shall be made without consultation with the councillor responsible for financial matters.

Consumer debtors comprise of a large number of ratepayers, dispersed across different industries and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Consumer debtors are presented net of a provision for impairment. In the case of debtors whose accounts become in arrears, it is endeavoured to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

Interest rate risk for trade and other payables is managed by ensuring that all payments are made within 30 days of receipt of statement, as prescribed by the MFMA

Interest rate sensitivity analysis:

Financial assets:

If the average interest rate at a given date had been 100 basis points higher, with all other variables held constant, the fair value impact on the Statement of Financial Performance would have been R175,933 (2012: R179,284) with the opposite effect if the interest rate had been 100 basis points lower.

Financial liabilities:

If the average interest rate at a given date had been 100 basis points higher, with all other variables held constant, the fair value impact on the Statement of Financial Performance would have been R67,565 (2012: R75,882) with the opposite effect if the interest rate had been 100 basis points lower.

Cash flow interest rate risk

Financial instrument	Current interest rate	Due in less than a year	Due in one to two years	Due in two to five years	Due after five years	Total
Trade and other receivables - normal credit terms	12.50 %	36,223,463	12,856,802	-	-	49,080,265
Cash in current banking institutions	4.60 %	84,131,066	-	-	16,230	84,147,296
Fixed interest rate instruments	10.37 %	61,238,353	54,676,450	161,262,954	422,789,475	699,967,232
Variable interest rate instruments	7.80 %	2,148,962	1,382,872	3,607,236	2,088,783	9,227,852

Expenditure was incurred in contravention with the municipality's supply chain management policy.
Irregular expenditure was approved in accordance with the supply chain management policy.

51. Actual operating expenditure versus budgeted operating expenditure

Refer to Appendix E(1) for the comparison of actual operating expenditure versus budgeted expenditure.

52. Actual capital expenditure versus budgeted capital expenditure

Refer to Appendix E(2) for the comparison of actual capital expenditure versus budgeted expenditure.

53. Deviation from supply chain management regulations

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the council and includes a note to the annual financial statements.

Refer to pages 64 to 72 for the supply chain management deviations.

54. Multi-employer retirement benefit information

Overstrand Municipality makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes.

One councillor belongs to the Pension Fund for Municipal Councillors.

Employees belong to a variety of approved Pension and Provident Funds as described below.

These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand

2013

2012

54. Multi-employer retirement benefit information (continued)

All of these afore-mentioned funds are multi-employer plans and are subject to either a tri-annual, bi-annual or annual actuarial valuation, details which are provided below.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councillors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

The total expense recognised in the Statement of Financial Performance of R33.5 million (2012: R34.1 million) represents contributions payable to these plans by the municipality at rates specified in the rules of the plans. These contributions have been expensed.

DEFINED BENEFIT SCHEMES

Cape Joint Pension Fund:

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2011. The scheme both operates a Defined benefit and Defined contribution scheme.

Defined Benefit Scheme:

The contribution rate payable is under the defined benefit section is 27%, 9% by the members and 18% (period 30 June 2009 to 31 January 2012) and 23.06% (period 1 February 2012 to 30 June 2012) by their councils. The actuarial valuation report at 30 June 2012 disclosed an actuarial valuation amounting to R3,014,878 million (2011 : R2,971,150 million), with a net accumulated deficit of R18,287 million (2011 : R58 935 million), with a funding level of 99.4% (2011 : 98.1%).

Defined Contribution Scheme:

The actuarial valuation report at 30 June 2012 indicated that the defined contribution scheme of the fund is in a sound financial position, with a assets amounting to R421.9 million (2011 : R386,570 million), net investment reserve of R21,231 million (2011 : R15,285 million) and a funding level of 105.3% (2011 : 104.1%).

South African Local Authorities Pension Fund (SALA):

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2012.

The statutory valuation performed as at 30 June 2012 revealed that the assets of the fund amounted to R8,753.4 million (2011 : R8,015 million), with funding levels of 100% (2011 : 98,1%). The contribution rate paid by members was 9% and by Council 18% and is sufficient to fund the benefits accruing from the fund in the future.

The trustees have subsequently agreed with the Financial Services Board on a revised scheme of arrangement. As part of the new scheme of arrangement, the fund's benefits have been restructured to ease the pressure on the required future service contribution rate.

It is the actuary's opinion that the fund can be regarded as financially sound at the valuation date.

DEFINED CONTRIBUTION SCHEMES

Cape Joint Retirement Fund:

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2012.

The statutory valuation performed as at 30 June 2012 revealed that the assets of the fund amounted to R11,348,285 million (2011 : R9,930,837 million), with funding levels of 99.9% and 108% (2011 : 100,3% and 116,9%) for the Share Account and the Pensions Account respectively. The contribution rate paid by the members (7,50%) and the municipalities (19,50%) is sufficient to fund the benefits accruing from the fund in the future.

Municipal Councillors Pension Fund:

The scheme is subject to an actuarial valuation every three years. The last statutory valuation was performed as at 30 June 2009. The latest interim valuation was performed as at 30 June 2010.

Overstrand Municipality

Annual Financial Statements for the year ended 30 June 2013

Notes to the Annual Financial Statements

Figures in Rand	2013	2012
-----------------	------	------

54. Multi-employer retirement benefit information (continued)

The interim valuation performed as at 30 June 2010 revealed that the assets of the fund amounted to R1 483, 786 381 (30 June 2009: R1 123. 672 020) million. The contribution rate paid by the members (13,75%) and the municipalities (15,00%) is sufficient to fund the benefits accruing from the fund in the future.

Although the last actuarial valuation was performed on 30 June 2012, the actuarial valuation had not been made public at the date of completion of these financial statements.

South African Municipal Workers Union National Provident Fund:

The last statutory valuation was performed as at 30 June 2008.

The statutory valuation performed as at 30 June 2008 revealed that the fund had a funding ratio of 100,0% (30 June 2005: 100,0%). The contribution rate paid by the members not less than 7.50% (2005 : 5,00%) and Council not less than 18.00% (2005 : 12,00%) is sufficient to fund the benefits accruing from the fund in the future.

The next statutory valuation is due not later than 30 June 2011. Valuation not yet received.

55. Distribution losses

	Electricity	Water
2013		
Rand value	5,656,872	3,829,726
	6.91%	20.01%
2012		
Rand value	6,512,826	2,891,622
% loss	7.12%	20.36%

Water losses to the amount of R3,829,726 (20.01%) were incurred as a result of unmetered connections, aging pipeline infrastructure, burst pipes, old reticulation networks and other leakages. Alien vegetation infestation in watercourses and catchment areas are also a contributing factor.

Cost per kilolitre was calculated using the following basis:

The water treatment and raw water departments are used in calculating the cost per kilolitre. The following costs for each department is used:

General expenses (excluding departmental charges), direct labour attributable to the purification of water, depreciation based on the cost of attributable infrastructure assets and all repair and maintenance.

The total of above expenditure is then divided by the total kilolitres of water purified during the year and this equals the cost per kilolitre.

Electricity losses to the amount of R5,656,872 (6.91%) were incurred as a result of technical losses caused by the nature of electricity and the manner of its distribution, via the network, status/condition and age of the network, weather conditions and load on the system as well as non-technical losses such as theft and vandalism.

56. Awards to close family members of persons in the service of the state
